After a while

for solo voice and lighter, to be performed in darkness

Annika Moses

After a duration of silence... "That will be the signal for you to light a cigarette" . . . Get out the lighter |

and light the flame as you sing a tone. When you can no longer sustain the tone, extinguish the flame. |

Repeat three times to any three pitches. ||

You can't tell

And Later On

For soprano and alto singers. Each singer individually counts to seven (internally) then sings their note for any chosen duration (suggested between 3 and 20 seconds)

Then suddenly

Each player picks a note from their pitch set to play on each cross-head note, in synchrony

You go home

Percussion player 1 is panned .R
Percussion player 2 is panned .L
Percussion player 3 is panned far .L
This can be achieved by positioning players for acoustic percussionists, or through speaker spatialisation if performed using electronics.
